

## A big thank you...

LineasearchbeforeUdig would like to thank all who participated in our first User Survey in June 2014.

There's a saying that you can never please all people all the time, but at LineasearchbeforeUdig we are firm believers that you can at least try. Your suggestions and comments have helped us understand how we can improve our service and we'll keep you informed on our progress. A selection of the responses is shown below:

### How do you rate LSBUD for ease of use?

**97% Positive feedback**

### How do you rate the drawing tools?

**95% Positive feedback**

### Suggestions to improve the service:

- an LSBUD app would be great;
- include Northern Ireland;
- allow larger enquiries.

### Suggestions regarding member responses:

- positive comments stating that they are very fast at responding;
- overwhelming feedback was that we need to sign on more members - we are working on it!

Once again, thanks for your input. It is much appreciated.

## Functionality (Hints/Tips)

Did you know you can print your enquiry results from the Summary screen?

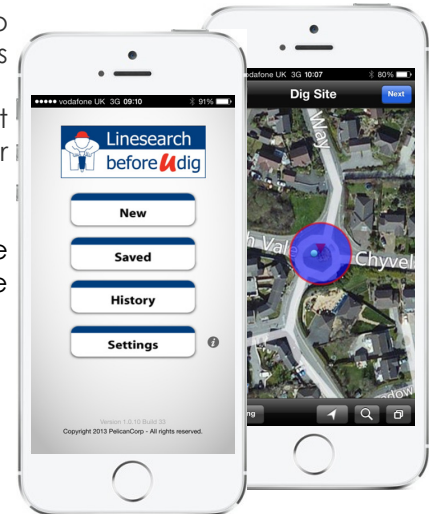

The Print Preview button is located in the top right corner of the Enquiry Summary screen.

This means you don't need to wait for your enquiry confirmation email to continue your search process.

## LSBUD iPhone App has been launched

LineasearchbeforeUdig is pleased to announce that our iPhone App has been released on the App Store. The LSBUD App allows you to submit enquiries while on the move via your iPhone or iPad.

Search for "LSBUD" on the App Store to install the App on your device now.

## Member case studies published

We have recently published a number of case studies for existing LineasearchbeforeUdig members, these are designed to illustrate how the service is helping them promote safety and protect their assets.
